Ten next most important actions to reduce health inequities in Aotearoa New Zealand

1. Equitable and fair fiscal and social welfare policy
2. Maintain and enhance social cohesion
3. Maintaining and enhancing investment in early childhood
4. Aligning climate change, sustainability and pro-equity policies
5. Health equity needs to be widely understood
6. Ill-health prevention that addresses risk factors contributing to health inequities
7. Ensuring fair employment and safe and healthy workplaces
8. Maintaining and enhancing Māori, Pacific and Asian policies and programmes
9. Ensuring health services are equitable
10. Health equity research needs to continue and focus on 'what works'
