

Dr Helen Lunt

Diabetes Physician
Clinical Associate Professor,
University of Otago,
Christchurch

Mr Rab Burtun

Diabetes Nurses Specialist
Waitakere Hospital, Waitemata
DHB

Thursday, August 11, 2016

(Room 3)

8:30 - 10:30 WS #5: Starting Insulin in Primary Care

11:00 - 13:00 WS #11: Starting Insulin in Primary Care (Repeated)

Who are we and what do we do?

1. GP who supports practice nurse initiation of insulin
2. GP who initiates insulin themselves
3. Nurse who initiates insulin
4. Work in practice that does not initiate insulin without support
5. Other

Insulin 1 - Who are we and what do we do?

Who are we and what do we do?

Who are we and what do we do?

1. My favourite starting insulin for my type 2 patients is glargine (Lantus) insulin
2. I have a different 'favourite' starting insulin regimen that I use most of the time
3. The starting insulin regimen is usually individualised (either by us or after consultation with the diabetes team)
4. Other

Insulin 2 - Who are we and what do we do?

Who are we and what do we do?

- | | |
|---|-------|
| 1. My favourite starting insulin for my type 2 patients is glargine (Lantus) insulin | 0.0 % |
| 2. I have a different 'favourite' starting insulin regimen that I use most of the time | 0.0 % |
| 3. The starting insulin regimen is usually individualised (either by us or after consultation with the diabetes team) | 0.0 % |

Who are we and what do we do?

1. Our practice encourages patients to bring in their glucose meters, so we can download onto our desktop/laptop computer
2. Our practice encourages patients to bring in their glucose meters so we can scroll through results
3. Our practice encourages patients to bring in their glucose meters and we ask the patient to scroll through their own results
4. We don't actively encourage patients to bring in their meters to appointments
5. Other

Insulin 3 - Who are we and what do we do?

Who are we and what do we do?
