

Rotorua GP CME

General Practice Conference
& Medical Exhibition

You are invited to attend Rotorua GPCME 2020 to be held at the Energy Events Centre in Rotorua in June 2020. This has grown to be New Zealand's premier medical conference providing broad medical update and practical take home information to improve your patient management immediately. A large number of GPs attend each year, over 800 in 2018. This is complemented by a very large exhibition from industry to inform what is new on the pharmaceutical and supply of equipment, texts and available IT solutions, all while gaining sufficient CPD points to satisfy our College of GPs and Medical Council requirements.

Rotorua is a great central location, with many leisure and fun options on offer for time out, especially for accompanying family members. Hotel accommodation is available at group discounted pricing, with motels aplenty for those wishing to do their own thing.

Practice nurses and practice managers are essential members of general practice teams, with their own dedicated sessions on the Friday or Saturday, but able to attend the entire meeting. We are grateful for the many presenters who give of their time to assist this meeting so well. The strength of the academic programme is the key with many concurrent practical workshops throughout.

The presentations are also available to delegates for 3 months' post conference on the www.gpcme.co.nz website for review as well.

On Saturday night, there will be another memorable conference dinner with entertainment and a live band.

Registration fees cater for trainees and practice colleagues and spouses, kept at a low level thanks to the generous support of industry, especially Boehringer Ingelheim and Medtech.

The stress of busy practices with ever increasing consultation rates dictates you deserve a break. We welcome you back for another great event in 2020, with over 100 workshops and quality plenary presenters. One lucky punter will win the annual travel prize, courtesy of the conference committee, for some real quality time out.

Feedback is utilised in constructing the following year's programme, and your suggestions for desired topics or speakers are acted on. Thank you for your ongoing support too. The New Zealand Medical Association supports this meeting strongly and our thanks to Lesley, Kate and their team for their assistance.

If you require any further details, visit www.gpcme.co.nz or contact the academic convenor or conference organiser.

Kind regards,

Academic Convenor
