General Practice Conference
& Medical Exhibition

Dear <<TITLE>> <<FIRST_NAME>> <<SURNAME>>

You are invited to attend Rotorua GPCME 2016 to be held at the Energy Events Centre in Rotorua in June 2016. This has grown to be New Zealand's premier medical conference providing broad medical update and practical take home information to improve your patient management immediately. A large number of GPs attend each year, over 800 in 2015. This is complemented by a very large exhibition from industry to inform what is new on the pharmaceutical and supply of equipment, texts and available IT solutions, all while gaining sufficient CPD points to satisfy our College of GPs and Medical Council requirements.

Rotorua is a great central location, with many leisure and fun options on offer for time out, especially for accompanying family members. Hotel accommodation is available at group discounted pricing, with motels aplenty for those wishing to do their own thing.

The hot pools are a great way to end the day. Complimentary breakfast and evening dinner sessions are provided with a plethora of prominent speakers on widely variant topics.

Practice nurses and practice managers are essential members of general practice teams, with their own dedicated sessions on the Friday or Saturday, but able to attend the entire meeting. We are grateful for the many presenters who give of their time to assist this meeting so well. The strength of the academic programme is the key with many concurrent practical workshops throughout.

The presentations are also available to delegates for 3 months post conference on the internet for review as well.

On Saturday night there will be a memorable conference dinner with entertainment again.

Registration fees cater for trainees and practice colleagues and spouses, kept at a low level thanks to the generous support of industry, especially Boehringer Ingelheim and Medtech.

Financially general practice is more buoyant again in contrast to 5-10 years back. The stress of busy practices with ever increasing consultation rates dictates you deserve a break. We welcome you back for another great event in 2016, with over 100 workshops and quality plenary presenters. One lucky punter will win the annual travel prize, courtesy of the conference committee, for some real quality time out.

Feedback is utilised in constructing the following year's programme, and your suggestions for desired topics or speakers are acted on. Thank you for your ongoing support too. The New Zealand Medical Association supports this meeting strongly and our thanks to Lesley, Kate and their team for their assistance.

If you require any further details, visit www.gpcme.co.nz or contact the academic convenor or conference organiser.

Kind regards,

Academic Convenor

Dear <<TITLE>> <<FIRST_NAME>> <<SURNAME>>

You are invited to attend the 7th South GPCME meeting to be held at the Horncastle Arena in Christchurch in August 2016. This medical conference provides broad medical update and practical take home information to improve your patient management immediately. This is complemented by a large exhibition from industry to inform what is new on the pharmaceutical and supply of equipment, texts and available IT solutions, all while gaining sufficient CPD points to satisfy our College of GPs and Medical Council requirements.

Christchurch is a great central location, with renowned southern hospitality, and attractive leisure or visitor options. GPs from throughout NZ attend the South Island event, taking the opportunity to revisit old university haunts, to check out family at the southern universities, or en route to the ski fields in Central Otago. Hotel accommodation is available at group discounted pricing. Complimentary breakfast at the conference venue and evening dinner sessions are provided with a plethora of prominent speakers on widely variant topics.

Practice nurses and practice managers are essential members of general practice teams, with their own dedicated sessions on the Saturday, but able to attend the entire meeting. We are grateful for the many presenters who give of their time to assist this growing meeting so well. The strength of the academic programme is the key with many concurrent practical workshops throughout. Presentations are available to delegates for 3 months post conference on the internet for review. Registration fees cater for trainees and practice colleagues and spouses, kept at a low level thanks to the generous support of industry, especially Boehringer Ingelheim.

Financially general practice is more buoyant again in contrast to 5-10 years back. The stress of busy practices with ever increasing consultation rates dictates you deserve a break. We welcome you back for another great event in 2016, with numerous workshops and quality plenary presenters. One lucky punter will win the annual travel prize, courtesy of the conference committee, for some real quality time out.

Feedback is utilised in constructing the following year's programme, and your suggestions for desired topics or speakers are acted on. Thank you for your ongoing support too.

The New Zealand Medical Association supports this meeting strongly and our thanks to Lesley, Kate and their team for their assistance.

Kind regards,

Academic Convenor
